

SPEAR

GOGGLE

MIL-PRF-32432A

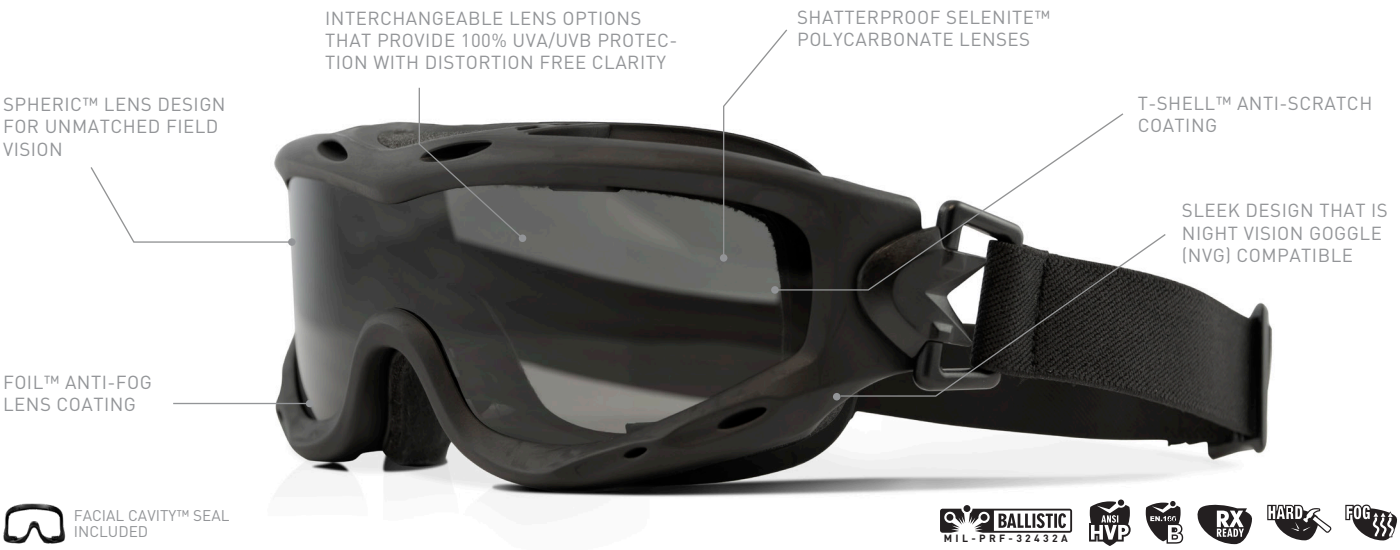

STANAG 2920/4296

ANSI Z.87

EN166B

When creating SPEAR, we took the traditional goggle format and added purpose-driven features to maximize comfort and protection. It has a SPEAR Elastic Strap with Tri-Glide System to adjust length and quick release key connections; it is compatible with the Wiley X ARC Rail Attachment System & the Team Wendy EXFIL® 2.0 and 3.0 rails, securing you a

comfortable fit when wearing a tactical helmet; and it has a removable gasket (Facial Cavity™ Seal) for added defense against pollutants and irritants. This, matched with its symmetrical venting system and its NVG compatibility, the SPEAR is a solid and versatile addition to your arsenal of protective equipment.

RAIL ATTACHMENT SYSTEM - RAS

SOLD SEPARATELY

RAIL ATTACHMENT SYSTEM - TW

SOLD SEPARATELY

The Rail Attachment System (RAS) makes it possible to integrate Wiley X goggles into your helmet rail system. The RAS includes two short straps with two RAS clips and two RAS bars to give a perfect fit for most of the ARC helmet rails available on the market.

The TW RAS makes it possible to integrate Wiley X goggles into your helmet rail system. The TW RAS includes two straps which are adjustable in length by the containing slider, enabling the user to modify the fit and tightness of the goggle.

PRESCRIPTION CARRIER

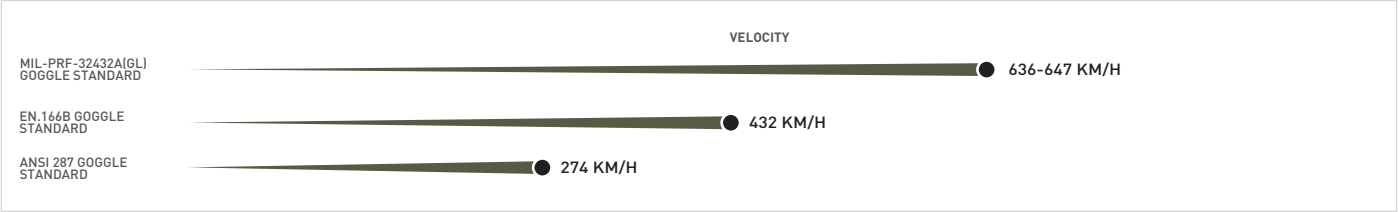

SOLD SEPARATELY

Insert a prescription carrier into the goggles for corrected vision behind high impact protection.

IMPACT PERFORMANCE

Founded on supplying military forces and law enforcement personnel with top-of-the-line ballistic eyewear, Wiley X continues to hold safety as our priority, making sure to meet international expectations and accredited test standards. This model passes the following tests:
